Hydro Connect

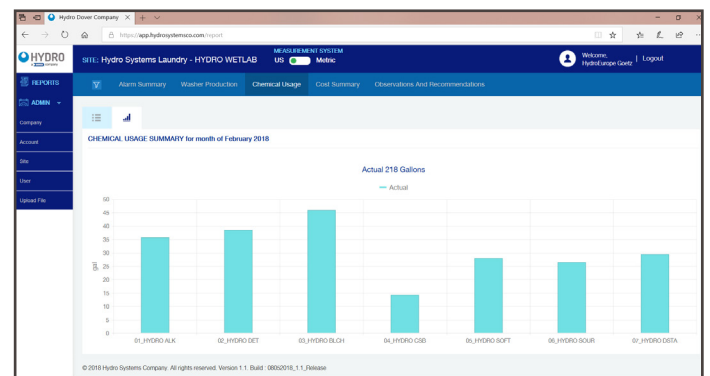

Cloud-Based IoT Platform for Chemical Providers and End Users

Hydro Connect is a cloud-based Internet of Things (IoT) platform that gives chemical providers and end users increased visibility into their operations, optimizes production, reduces costs and increases customer satisfaction.

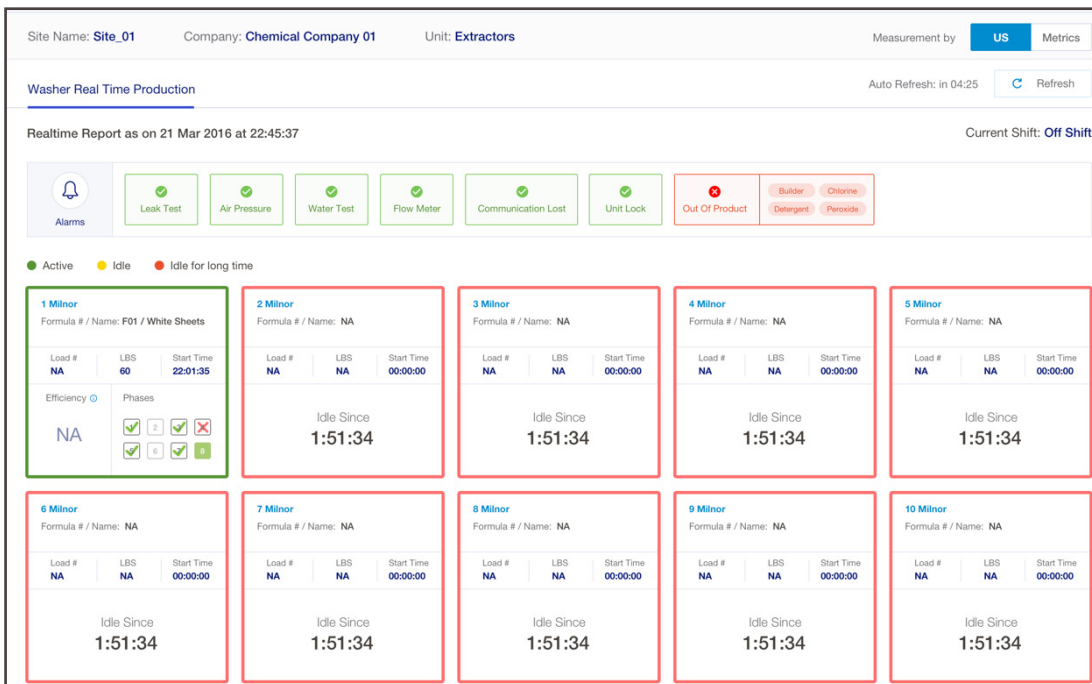

Hydro Connect will be introduced to the industrial laundry market first, with products in facility cleaning not far behind. Built on the Microsoft Azure platform, Hydro Connect utilizes data generated from the Dositec Central Dosing Systems, currently operating in industrial laundries worldwide. Data transmits from the unit to the Hydro Connect system using a 3G Cellular Modem and a 250 MB/month data package.

Advantages of Hydro Connect

- **Scalable solutions across multiple cleaning environments:** Hydro Connect transmits data to the cloud in a number of ways, including cellular, WiFi or Bluetooth depending the environment.
- **A proven, reliable and secure platform:** The Microsoft Azure architecture provides users with a trusted and secure platform, used by hundreds of leading companies across multiple industries for their IoT solutions.
- **Enhanced knowledge to help run your business:** Current Hydro Connect capabilities allow customers and end users to log in and view professional laundry reports in seconds. This reduces time-consuming data uploads, manipulation in Microsoft Excel and the use of a proprietary software package. The flexibility of Hydro Connect makes it a valuable tool for both tactical, day-to-day monitoring and monthly summaries to management.

INFORMATION OF EVERYTHING

Insights

- **Alarm reporting:** Proactively view alarms to rapidly eliminate abnormal conditions that drive profit loss.
- **Production:** Eliminate the use of out-of-date paper logs to document the number of pounds or loads run in your facility.
- **Chemical usage:** Simplify and improve the accuracy of your billing procedures with metered usage reports on chemical product and formula.
- **Cost:** Quickly access a snapshot of the chemical cost by formula to actively manage and improve unprofitable formulas or accounts.
- **Observations/recommendations:** Eliminate hours of data manipulation and analysis. For a minimal charge, a Hydro expert will review the monthly data and provide recommendations to help reduce rewash and optimize cleaning results.
